

Exchange Deployment Planning Service

*Free for Software Assurance customers and other qualified accounts. Other clients may receive service for nominal fee.

Microsoft's Exchange Deployment Planning Service Applies Best Practices to Optimize the Effectiveness of Exchange Deployments

Deployment Planning will ensure a properly designed architecture, reduce deployment complexity, and help mitigate the risk of service loss and business disruption.

Exchange Deployment Planning Service (EDPS) ensures a successful and efficient deployment of Exchange Server.

CorpInfo is a certified EDPS consultant and has the expertise to guide customers through the deployment planning stages of a Microsoft Exchange Server implementation. CorpInfo will share best practices from Microsoft and analyze your organizational requirements to ensure that the solution is properly designed, the deployment is seamless, and the business objectives of all stake holders are achieved.

Customized Deployment Plan for Seamless Transition

After a comprehensive assessment, CorpInfo will present a customized Exchange Deployment Plan that outlines recommendations and addresses the specific business and technical considerations identified. This plan also provides a detailed outline of how your organization can deploy the software, including timelines, tasks, resources, and estimated costs.

Exchange Deployment Planning Service Offers One to 15 Days of FREE* Deployment Planning Services from CorpInfo, a Certified EDPS Consultant.

Considerations for Exchange Deployments Include:

- Organizational Readiness
- Configuration Guidelines
- Path to Exchange 2010
- Disaster Recovery: Clustering, Replication, and Failover
- Data Migration
- Compliance
- Mobility
- Understanding Server Roles and their impact on design decisions
- Evaluating storage solutions in light of the new 64-bit architecture

CorpInfo was awarded the Microsoft Partner Award for Best Practices and Excellence in Competency for the Quality of Our Architectural Design Sessions.

DEVELOP A STRATEGIC PLAN TO SECURE, MANAGE AND OPTIMIZE YOUR MESSAGING ENVIRONMENT

Exchange Deployment Planning Service Offerings:

Solution Briefing: Identify your goals and review specific examples of how Exchange Server would benefit your organization.

Architecture Design Session: Outline critical technical aspects of the deployment. Design a high-level technical solution based on the shared vision established during the Solution Briefing. Develop a tailored value proposition and deployment plan.

Proof of Concept Lab: Demonstrate technical capabilities and leverage the results to customize a deployment plan, architecture blueprint, and value proposition.

Envisioning Engagement: Generate a high-level Vision/Scope document.

Customized Deployment Plan: At the completion of the engagement, each client receives a Customized Deployment Plan that summarizes the entire process and specific outcomes.

ELIGIBILITY FOR COMPLIMENTARY SERVICES

Customers under Enterprise Agreement, Enterprise Agreement Subscription, Select SAM (Software Assurance Membership), and Open Value or Open Value Subscription (with SA) Enrollments are eligible to receive these benefits. The number of engagement days is 3, 5, 10, or 15, as determined by your Software Assurance coverage.

Should you want to extend the length of your Exchange Deployment Planning Services engagement to a higher level offering, you have the option of converting unused training vouchers toward increasing your Exchange Deployment Planning Services entitlement level.

Additional days may be available for qualified accounts or can be purchased directly from CorpInfo for a nominal charge. Customers without Software Assurance may purchase as many days as they require for a nominal charge.
